New Line of Steamers.

The Mexican Government has just approved a contract with Mr. Salvador Malo for the establishment of a trans-Pacific steamship line between ports on the west coast of the republic and Asia and also along the coast to California. The company which Mr. Malo will form is to be known as the "Asiatic Mexican Maritime Company" and it is stated in the contract that vessels are obliged to make one round trip a year between Mexico and Asia with the privilege to increase the trips as desired. The government will receive privileges such as the free carrying of mails, discount in the carrying of troops and officials for which privileges it agrees not to give another concession for a like steamship company for a period of four years. The ships of the company will be free from all taxes by the either federal or state, it has the privilege to erect and equip shipyards at two points designated and ceded by the government on the Pacific coast, all machinery and material for them being admitted free of duty. The company is also authorized to establish a line of steamships between Salina Cruz and San Francisco. Within eighteen months from the date of the contract it is obliged to establish a line of steamships between Guaymas and Salina Cruz.

The coast line steamships of this company will enjoy the same privileges that have been heretofore granted to other Pacific coast companies. Within four months the concessionaire is obliged to deposit \$10,000 in Public Debt bonds as a guarantee of the Asiatic line and \$5,000 for the coast line.
